It looks as though Russia was pretty near its Witte's end.

Sevastopol harbor is more completely ruined than any Russian port was during the war.

Cuba says they are something on the revolution business themselves and will take a round out of the Isle of Pines themselves.

Michigan University may now go against football. Hurry-Up Yost's eleven was beaten by Chicago 2 to 0 Thanksgiving day.

China wants an indemnity from Russia, and the czar says he is not to blame. Japan was the cause of it if he ever struck Chinese territory.

Midshipman Meriweather had to fight or be dubbed a coward. He was forced to it and now has to stand trial for sending a branch of the naval academy to a foreign port.

The czar of Russia is kept so busy dodging about to escape the bombs that are being placed for his benefit that it has been impossible for him to pose for "his latest photograph."

A young lady of Savannah, Ga., was attacked by a negro who tried to steal her purse. She was well up in the art of self-defense and landed on his nose with her right. The black fellow only wanted one blow.

The stock farms of Florida may not be so numerous, but we have as fine cattle and hogs as any State in the Union. Stock is the strong point in our farming industries. Let every farmer bear this in mind.

From present indications it seems that Tammany will not come out of the election in New York in such bad shape as was at first supposed. There are not so many frauds as anticipated, and the bombs have exploded without very much damage.

A Philadelphia tramp who crept into a house where he found a cask of wine and kept drunk for four days, was arrested and sent up for twenty days. He said it was worth more and expressed the opinion that the judge did not appreciate the quality of the wine.

We have been repeatedly told that no "blind tigers" exist where there are licensed saloons. The Press, published in Fort Myers where there are saloons, reports the conviction there in the last circuit court of three blind tigers. No comment needed.—Punta Gorda Herald.

The saving of \$125,000 from the amounts paid to the smaller colleges for their maintenance, which the Buckman bill abolished, leaves that amount to be used for the education of our boys and girls in the public schools, which have increased their course of study so that graduates from those that have the twelve grades can enter the University without going to a preparatory school. Our public school graduates can now enter any college in the State on their diploma.

## WHY MARION COUNTY WON.

The award of first premium at the State Fair to Marion county, in the competition of collective exhibits, says The Tampa Daily Times, is due to several causes, very prominent among them being the industrial and commercial character of its very systematic display. From the mere point of size and beauty its exhibit in the main building was inferior to several others. But it appealed successfully to the business instincts of the visitors and judges alike. It is the first county among those making a show to undertake a systematic development of its agricultural resources along those lines which are recognized the country over as most promotive and productive of wealth—farm products and live stock.

This is in strict accord with the gospel which The Times has been for years preaching to the people of this State. We have here the foundation for the most prosperous commonwealth in the Union, the climate, soil, productions and everything that is essential to the raising and sale of those farm articles which have the widest and most prominent market. Marion county has affirmed and proved this proposition, and has shown that there are people of intelligence engaged in such production with the most gratifying degree of success.

Florida has hitherto been relying too much upon her attractions rather than her resources, and right here is a difference and distinction which this paper wishes every reader to ponder. People do not and cannot live upon attractions. But upon resources they not only live, but they accumulate surplus wealth and power, and are then able to add as non-remunerative features of their lives such attractions as taste and means dictate. Attractions may not only be displayed, but resources can be exploited to their full exhaustless extent, with such practical results as enrich the people engaged. Our attractions do draw to us many people already fixed. Our resources draw to us the larger number who wish to fix themselves. It need not be stated that the process of fixing is wealth-creating, dispensing benefits to everybody. The enjoyment of attractions merely distributes in much smaller proportion and to much less advantage a wealth that has already been accumulated.

Let the whole State emulate the example of Marion county. Let it be remembered that in the possession of these resources Marion county is not one whit ahead of the balance of us—only in the development and presentation of what may be made out of them. Hereafter the horse and cow and hog and sheep and hen will take precedence in public esteem of the beautiful fruits and flowers of our region. Corn, potatoes, peas, cassava, grass, cabbages, onions—and in short the full list of things to be eaten by people and fed to stock, will take rank in front of the sweeter and more beautiful, but less substantial products of our climate and soil.

Without depreciating in the least the wonderful merits of our fruit trees and vines, it is worth while for us all to take note that a new era has opened for Florida. The pathway to wealth and power has its initial point with us. Let us tread it with sense and resolution and industry, sure to arrive at the goal.

## PEOPLE SATISFIED.

There is an effort being made to declare the Buckman bill unconstitutional, but we hope it will not carry. We suppose Lake City is not satisfied with the decision of the Board of Control in placing the State University at Gainesville, but the majority of the people of the State are satisfied and it is time they should be.—Eustis Lake Region.

Up in Wisconsin they are getting so chilly—16 below—that LaFollette is afraid Lieutenant-Governor Davidson will freeze him out at the next election.

## HOW TO TREAT YOUR TOWN.

Praise it.  
Improve it.  
Talk about it.  
Write about it.  
Trade at home.  
Be public spirited.  
Take a home pride in it.  
Tell of its business resources.  
Tell of its natural advantages.  
Trade and induce others to trade here.

When strangers come to town use them well.

Don't call your best friends frauds and impostors.

Support the local institutions that benefit your town.

Look ahead of yourself when all the town is to be considered.

Don't forget you live off the people here, and you should help others as they help you.

Don't advertise in the local paper "to help the proprietor," but to help yourself.

Let's get together and keep things moving, hustling all the time; cheerfully keeping a stiff upper lip, waiting for the good time coming for the old town. Let's try it. Do it now.—Exchange.

The live stock exhibit at the State Fair from Marion and Alachua counties have astonished even the natives and old settlers there from other sections of the State. They can't believe that such stock could be produced in Florida. There were hogs there from those counties that weighed 1,000 pounds each, and horses as fine as ever came from the Blue Grass regions of Kentucky.—Volusia County Record.

The schools of Marianna are in a prosperous condition in spite of the destruction the Buckman bill has wrought to the educational institutions of the State.

Mrs. Helen Wilms Post, whose home is in Seabreeze, and who has gained such notoriety in the Christian Science field, contemplates locating in California.

The editor of The Lake Butler Star had a sweet potato presented to him a few days ago that weighed nearly ten pounds.

## UNHAPPINESS DISPELLED.

Men and Women Unanimous About It.

Many women weep and wall and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
